

Helen Keller International JOB ANNOUNCEMENT

Senior Monitoring & Evaluation Specialist, USAID Food for Peace DFSA (Ouagadougou, Burkina Faso)

Established in 1915 with Helen Keller as a founding trustee, Helen Keller International (HKI) is dedicated to saving the sight and lives of the world's most vulnerable and disadvantaged. Headquartered in New York City, HKI currently conducts programs in 21 countries in Africa and Asia, as well as in the United States. Renowned for its reliability, efficiency and high level of technical expertise, HKI promotes the development of sustainable, large-scale programs that deliver effective preventative and curative services for nutrition, eye health and neglected tropical diseases. The hallmark of the organization's work is its proven success in developing, testing and scaling-up health interventions, and integrating them within government and community structures to support and build local capacity and sustainable solutions.

Background

HKI started its programs in Burkina Faso in 1986 and opened an operating office in 1999. Currently, HKI implements a large and complex program focusing on nutrition and the control of neglected tropical diseases (NTDs). HKI supports the government's efforts in the fight against malnutrition by implementing a wide range of activities including Vitamin A supplementation, food fortification, school health and nutrition, prevention and management of acute malnutrition, enhanced homestead food production, promotion of orange-fleshed sweet potatoes and development of strategies to promote essential nutrition actions.

HKI seeks a Senior Monitoring & Evaluation (M&E) Specialist to be based in Burkina Faso to provide technical expertise and leadership to generate and analyze quality evidence and data through monitoring, assessments, and evaluations of an anticipated USAID Food for Peace (FFP) Development Food Security Activity (DFSA).

Burkina Faso is one of two focus countries, along with Niger, for USAID's resilience agenda in the Sahel. USAID builds the resilience of vulnerable rural residents by:

- Strengthening the institutions and governmental bodies meant to serve them;
- Improving their productive opportunities; and
- Helping increase the capacity and accessibility of social services while ensuring access to more nutritious foods; while
- Building on the many practices that Burkinabe have used to weather conflicts and natural shocks.

Functional Relationships

Reporting to the Chief of Party, the Senior M&E Specialist serves as the M&E and reporting lead for the USAID Food for Peace (FFP) Development Food Security Activity (DFSA) program. The Senior Specialist will supervise the development and implementation of all M&E activities in-country and work closely with other colleagues at HKI's Africa regional office and headquarters. The position also requires close cooperation with the government of Burkina Faso, partner NGOs and key stakeholders, as well as with the donor.

HKI has a matrixed reporting structure that respects both the line management and authority within country office and regional hierarchies; and the accountability and oversight duties of subject matter experts at the regional and headquarters level. Regular communication and a spirit of team work among colleagues, both hierarchically and laterally are essential to make this structure thrive.

Scope of the Position:

The Senior M&E Specialist will provide technical expertise and leadership to generate and analyze quality evidence and data through monitoring, assessments, and evaluations. The position will build or strengthening monitoring systems, quantitative and qualitative analysis, and effectively promote evidence-based program management in order to develop and operationalize a comprehensive M&E Plan that conforms with FFP Policy and Guidance. This position will be based in Ouagadougou, with frequent travel to project areas.

Qualifications:

- A master's degree in a quantitative field (economics, agricultural/development economics, statistics, bio-statistics; nutrition, applied sociology, anthropology, or other relevant subject) with significant training in quantitative methods plus eight years relevant experience, or a PhD in any of the stated field of study above, with at least six years relevant work experience are required.
- Demonstrated experience in leading the M&E of a large award including experience and expertise in developing and operationalizing a comprehensive M&E plan. and the ability to think creatively about active data sharing techniques.
- Strong conceptual knowledge about ToCs, logic model, food and nutrition security indicators, M&E plans, data quality assurance, data utilization, and gender integration into M&E.
- Demonstrated expertise and experience in:
 - building or strengthening monitoring systems, quantitative and qualitative analysis, and effectively promoting evidence-based program management;
 - developing and operationalizing routine monitoring systems designed to track both output and outcome indicators;
 - designing annual monitoring surveys including probabilistic sampling strategy and estimating sample size, developing appropriate weights, and analyze quantitative data
 - designing qualitative studies, qualitative sampling, and in using interview and interactive tools to generate qualitative information and analysis; and
 - developing data quality assurance strategies, data management, data visualization and data utilization strategies.
- Excellent interpersonal skills, including an ability to lead and motivate a team, build consensus and clearly communicate a vision and decisions made.
- Demonstrated ability to build and maintain relationships with host governments, donors, other stakeholders, local organizations, and partners.
- Fluency in English and French are required. This includes excellent oral and written English language skills, including the ability to quickly synthesize complex technical and programmatic issues into concise communications and develop high quality reports.
- Experience working within the Francophone West African/Sahel development context is an advantage.
- Ability to travel extensively within the country and internationally, as required and as security permits.
- An ability to work in challenging and changing environments, and to see through challenges to find solutions; an ability to maintain balance when under stress.
- Demonstrable respect for all persons regardless of religion, ethnicity, class or gender, with a high comfort level working in a diverse environment with a demonstrated commitment to high professional ethical standards.

To Apply:

Qualified candidates should submit a cover letter and resume to Hki.Recruitment@hki.org noting the job title in the subject line. Applications will be accepted until the position is filled.

Employment is contingent upon USAID award. The initial contract is for two years with the possibility of renewal.

Helen Keller International is an Equal Opportunity Employer. All qualified applicants will receive consideration for employment without regard to race, color, religion, sex, national origin, age, sexual orientation, gender identity, genetic information, disability, or protected veteran status.
